By the way, there was in the Convention a solitary delegate who tried to enter a protest against the platform, but he was out of order. This was a very proper ruling, for the platform had been prepared in advance, and the orders to put it through were as binding upon all the delegates as were the orders to pass rip per bills and franchise legislation upon the members of the Legislature.

In spute of the wordy platform, the issue is clearly joined. If the people want to endorse the acts of the last legislature and approve the Administration of Governor Stone they should vote the Republican ticket. If they want to condemn both they should vote the Democratic ticket.

From the Plater, Temes, Incl. Dem.

The pointical machine that has de-banched the government of Pennsyl-vania, plundered the treasury and robbed the people of their rights, would shelter itself from public retribution under the name and authority of the Republican party. It would be a waste of time to discuss the foolish form of words put forth by the convention at Harrisburg Wednesday as a declaration of princi-ples * the state Le. islature of Pennsylvania, whose acts the Republican State convention "hearthly commend and sudorse," is acknowledged by all to have been the

The two cloudbursts that devastated the lower part of York county and the north-orn part of Maryland the past week, resulted in loses that will aggregate \$500,000. About 20 mill dams were destroyed and as many more badly damaged. At least 25 bridges were washed a way. The Northern Central Railroad, part of the Pennsylvania system from Baltimore to the north and west, was tied up for 35 hours. It was the bardest blow the road has received since its construction in 1854. If the action of your bowels is not easy and regular, estions complications must be final result. For Men. The Keller Garment

Supporter is an-up-to-date

creation. The old-time Suspender suspends the the trousers from the six places of attachment so rigidly that every movement of the body pulls hard at some part of them. If you sit down they try to push your knees through your trousers, but of course you know all about it. The Keller Garment Supporter is sewed on the inside of the trousers, directly over the out-side seam, the entire strain or weight being directly over the hips. The supporters act as a pivot, the suspenders following every movement of the body, do not strain, but simply support. If you use them your trousers do not bag at knee or seat; if you bend down to pick up something from the floor. they do not draw over the seat or front from hip to knee. You can wear them under your shirt and do without a coat. Greatest of all perhaps—no buttons to come off. They sell at 50 c.—all brass trimmings, no rust from perspiration.

APPLES FOR ALL. CROP WILL BE A LITTLE SHORT BUT OF

GOOD QUALITY Dealers Ridicule the Reported Alternot Dealers in the Big Cities to Control

this Year's Supply

The apple crop of the Hunted State promises to be rather smaller this year than usual, but there will be enough to go around, and in addition the fruit, it is claimed, will be of good quality. A dis patch from Hageistown, Md, announced that Philadelphia, New York and Balti more firms were endeavoring to corner the apple market, and that growers to that vicinity had received tempting of fers for the products of their orchards, but were in doubt whether to accept

them or hold out for more The alleged attempt at a corner however, ridiculed by the leading Phila-This rumor has been started by some owner of orchards in Maryland and West Virginia," said J W Thorn, of Phila delphia. Mr. Thorn's firm has for years past handled considerable fruit from that section, and he is regarded as an authority on the fruit crop along the

region of the Cumberland Valley "The crop in the vicinity of Hagers town and all through the Cumberland Valley," continued Mr Thorn "will not be much in excess of 100,000 bairels This is by no means a large crop, but it is a fair average crop. The fruit is coming along well, and, on this account a number of dealers went up there rather early and bought up the products of several orchards at prices ranging from \$1 50 to \$2 a barrel The grower agrees to pick the crop and ship it to the rail road depot, while the buyer furnishes the packing and pays the railroad NO CREDIT - NO LOSSES

freight. That buyers started up through Maryland and West Vuginta a little early this year is responsible for the idea the farmers bave gotten into their heads about 'a corner in the apple market.' The idea is ridiculous when you come to think that the whole crop up there will not, as I have said, exceed 100 000 barrels. The amount is not a drop in the bucket' in the apple market The great centres of interest to apple dealers this year are Missouri, Kansas Nebraska, Illinois and Iowa. The State of New York will futuish from 500 000 to 750 000 barrels of this year's crop When this is considered the insignifi cance of the Cumberland Valley output can be appreciated Generally speaking the crop is short this year. But there will be flenty of upples to go around

and all indications point to a good, round 'It is foolish to talk of a corner apples now when the or p is not half grown The time for a corner would be 11 the early spring In past years promment dualess have corneted the applimarket and to some extent controlled the time this can never be done however, until after the crop is picked Barre ! Henoraksii & C , of Pall delitia stated that they used not yet received replies to queries which they sent out to all sections during the past week, to ascertain the condition of the aprile crop 'We have information that the Michigan apple crop is better this year than I has been for some years, but generally the crop is short ail over," said a member of the firm 'No one will be short of apple pre, dumplings o apple butter, however, he remarked In the Cumberland Valley section they have a very exalted idea of their apples, and because they have an apparently good, sound, promising crop, buyers rave been up there. The early visit of the buyers evidently caused the truit growers to conclude that there was some deep scheme on toot to corner the market. It has also been rumoted that

"Oh, I don't know," said Grace in bewilderment. "Are you suie you don't want to go, Bertha?"

"Indeed, I do want to go, dreadfully," said Bertha frankly. "But as I've told you it is impossible. But if I am disappointed, Aunt Meg musu't be. You aust go, Grace, and that is all there is bout it."

In the end, Grace did go, a little puzzled and doubtful still, but thankful beyond words to escape the drudgery of the counter and the noise and heat of the cuty. Bertha went home, feeling a fan, 1,'00. if
